

## US Toxic Substances Control Act (TSCA) PBT Substances Declaration

In January 2021, the US Environmental Protection Agency (EPA) issued final rules under the US Toxic Substances Control Act (TSCA) Section 6(h) to restrict the use of certain chemicals that are persistent, bioaccumulative and toxic (PBT). The rules limit or prohibit the manufacture (including import into the US), processing, and/or distribution in commerce for the following PBT substances (Persistent, Bioaccumulative, and Toxic):

- Phenol, isopropylated, phosphate (3:1) (PIP (3:1), CAS 68937-41-7
- Decabromodiphenyl ether (DecaBDE), CAS 1163-19-5
- 2,4,6-tris(tert-butyl) phenol (2,4,6-TTBP), CAS 732-26-3
- Pentachlorothiophenol (PCTP), CAS 133-49-3
- Hexachlorobutadiene (HCBd), CAS 87-68-3

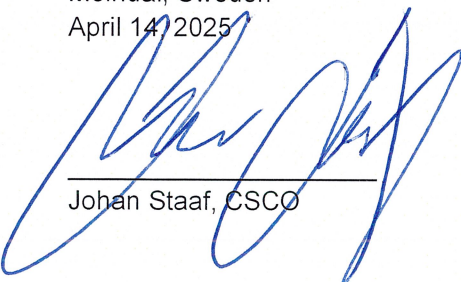

Kvaser has reviewed its products regarding the use of the above substances, and we confirm that these substances are not intentionally added to our products, and no materials or preparations containing these substances are used in the manufacturing processes.

We have assessed our supply chain and obtained substance information from key suppliers. To date, no supplier has indicated the presence of the above mentioned PBT substances in any materials used in our products.

Kvaser is continuously working to ensure regulatory compliance and chemical safety throughout the entire production and supply chain.

This declaration is based on our current knowledge and is valid until further notice or until new information becomes available.
